

Product Parameters

Rechargeable wire strippers SW-1018

Model	SW-1018	Stripping range	Φ50-300 conductor
Battery	18V/4.0Ah	Weight	2kg
Bushing arrangement	13.2, 14, 14.8, 15.6, 16.4, 17.2, 18, 18.8, 19.6, 20.4, 21.2, 22, 22.8, 23.6, 24.4, 25.2, 26, 26.8, 27.6, 28.4		

Product Detail

Scope of application

It is mainly used for quick stripping and cutting of insulated wires overhead wires and cables

Peel length is adjustable

Loosen the adjusting bolt and slide according to demand

01

High and low two speed adjustment

Sliding button to adjust the speed work just to meet the needs of different forces

02

One key forward and reverse operation is more convenient

Thumb and forefinger can easily control the positive and negative work

**03**

18V high-performance lithium battery

Long endurance power is strong and robust and can be peeled easily

04

Special alloy steel knife body

knife body Angle and shape scientific design, not easy to hurt the knife, long life

05

Product packaging
