

Product Parameters

Hydraulic Cable Cutter

Labor saving and high efficiency

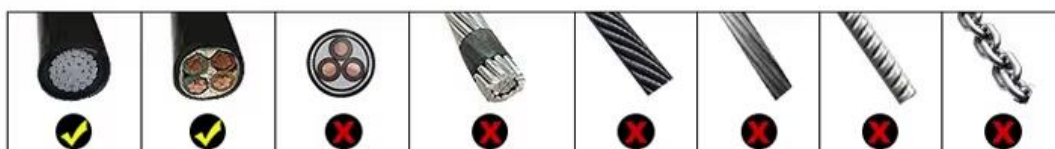

CPC-50H

Suitable for cutting of various materials

Our products are used in power industry, copper aluminum armored cable cutting operations. It is a necessary tool for power engineering operation. Our products are light, corrosion-resistant, labor-saving and efficient.

Model	CPC-50H	Length	378mm
Output	7T	Weight	approx. 6.5Kg
Cutting Range	Cu-Al armored cable $\leq \phi 50\text{mm}$		

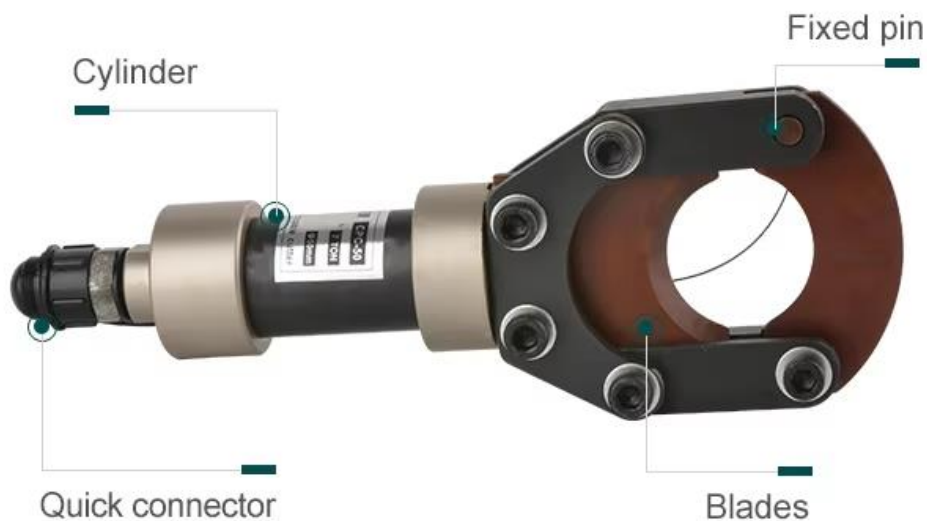

Product Size

Unit: Millimeter (mm)

Product Detail

01 Spring steel blades

The blade is quenched. It is high strength and durable

Easy to disassemble

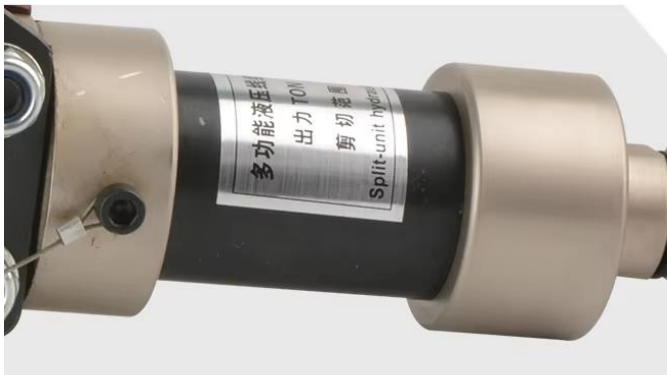

02

Buckle hook-knife head can open conveniently, cables can be put in any position for cutting

03 Cylinder

No oil leakage of precision oil cylinder.
It is easy to cut off with powerful strength.

Quick connector

04

It is easy to connect with pumps by quick connectors.
Both manual and electric hydraulic pumps can be used.
