

## Product Parameters

### Hydraulic Screw Cutter

#### JK-24

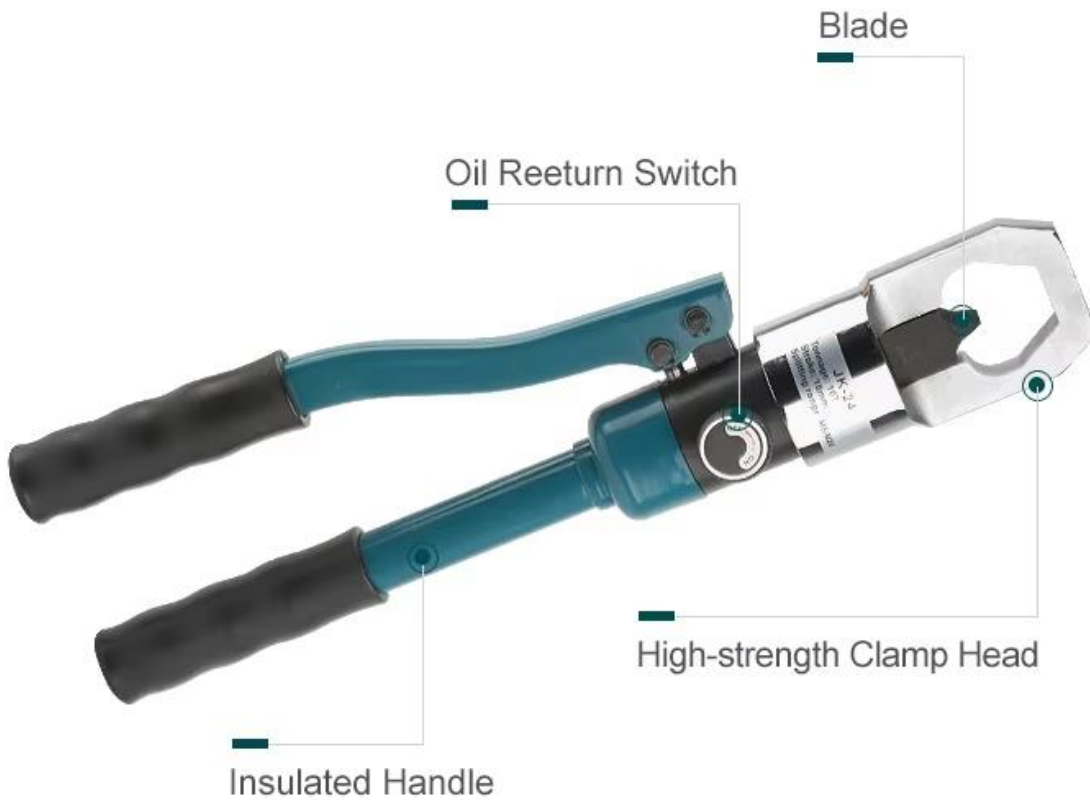

When the nuts rusted this nut nutting machine is most time-saving tool, no need power.

Item No.	JK-24	Inside dia of nut	M8-M24
Output	10T	Outside dia of nut	14-36mm
Stroke	18mm	Weight	4Kg

## Product Detail

**01** The head is made of 40CR chrome steel

Not easy to deform, the semi-hexagonal shape is more in line with the position of the nut.

**02** Easy and Quick Pressure Relief

When pressing, tighten clockwise, release counterclockwise after pressing and return automatically.

**03** Oil pump core

Modified version plunger, three-layer sealing ring isolation without oil leakage.

**04** Thickened insulated handle

Humanized handle design, more labor-saving and safer.
